

PMX124

12 Channel Mixing Console

AUDAC

► Features

- 6 mono and 4 stereo inputs
- 3 band equalization
- 1 Aux with Pre/Post switch
- Flexible and small desk
- 24 bit built-in DSP
- 100 Preset effects available
- Peak signal indication
- PFL for every channel
- 19" adapters included

► Applications

- Small PA systems
- Clubs
- Theatre
- Rehearsal rooms
- Pubs
- Music venues

The PMX124 is a 12 channel multi-purpose mixer with 6 mono and 4 stereo inputs. It is a perfect and easy to use solution for a wide range of applications like bands and musicians, but also for fixed installations.

By means of the built-in 24-bit DSP box, there can be selected between 100 fixed high quality studio grade digital effects. Some examples are reverbs, delays, chorus and flange. The intensity of the effect can be controlled by the EFX RTN fader, and an individual potmeter for every channel.

A 3 band equalization is available for every input channel, and besides the equalization there's a HPF filter present for channels 1 to 7/8.

Furthermore, there's a Peak LED for every mono channel and a PFL and mute switch for every mono and stereo channel. Two high-resolution LED bargraphs monitor the output signals for the Main L/R.

Phantom power is available on every microphone input channel, to supply your condenser microphones and active Direct Injection (DI) boxes.

The external power adapter delivers a 17 V AC supply voltage to accomplish the best signal to noise ratio to keep the noise floor as little as possible.

The PMX124 will give you years of trouble-free gigging thanks to the solid chassis design and the use of high quality components.

With this console, two 19" adapters are included to fit at both sides of the PMX124 for attachment into 19" flightcases or racks.

► Specifications

SYSTEM SPECIFICATIONS		
Max. output level		24 dBm
Frequency response -3 dB		20 Hz - 20 kHz
THD		< 0.01 %
Crosstalk		< 70 dB
Hum & noise	EIN	< -127 dBu
	Residual	< -100 dBu
	Main - ALT3/4 - AUX - EFX output	< -80 dBu
Equalization	High	12 kHz ± 15dB
	Mid	2.5 kHz ± 12 dB
	Low	80 Hz ± 15 dB
DSP effect		24 bit / 100 presets
Power Supply		230 V AC - 50/60 Hz
Phantom power		48 V DC
