- Clear and crisp sound reproduction
- Mounting bracket included
- 8 x 3" drivers
- Different power taps
- Aluminium front finish

► Applications

- Auditoria
- Houses of worship
- Sports facilities
- Conference facilities
- Public buildings
- Meeting rooms

The CLS series are standard powerful column speakers with a slim design, perfectly suitable for a wide variation of indoor applications where audibility of music and speech is very important.

The CLS440 features a speaker unit consisting of 8 x 3" drivers, capable of producing a power up to 40 Watt RMS.

The advanced technology gives the effect of listening to a single sound source, with the same dimensions of the total speaker unit. This guarantees a wide sound dispersion and improved speech intelligibility in acoustically difficult venues.

Some typical applications of column speakers are: houses of worship, auditoria, sports facilities, conference facilities, meeting rooms, public buildings, educational facilities, ...

It is fitted with a 100V line transformer with power taps for 40W and 20W.

The speaker housing is made of sturdy aluminium coated in a white color, offering a timeless design which will be appreciated in any interior.

For the mounting of the CLS440, a special bracket is included, which makes it possible to focus the speaker.

► Specifications

SYSTEM SPECIFICATIONS	
Max. power	60 W
RMS power	40 W
Line voltage	100 V
Power taps	40W / 250 Ohm 20W / 500 Ohm
Frequency response -3dB	170 Hz - 15 kHz
Sound pressure W/1m	92 ± 3 dB
Horizontal dispersion angle (-6 dB)	1 kHz: 180° 2 kHz: 135° 4 kHz: 90° 8 kHz: 35°
PRODUCT FEATURES	
Dimensions (Width x Height x Diameter)	834 x 104 x 86 mm
Weight net	3.5 Kg
Drivers	8 x 3"
Construction	Aluminium
