- 360° revolving structural design with connecting point
- 3-pin gold plated XLR

► Applications

- Conference
- Public communications
- Outdoor speeches
- Churches
- Courts

The CMX220 mini shotgun condenser microphone can be used in various sound applications, but will especially prove its worth when applied in situations comparable to conferences, public communications, (outdoor) speeches and use in church and court.

The polar pattern allows a more directed sound-recording.

Together with the high sensitive condenser microphone, this feature makes the CMX220 the ideal appliance for users who want to record sound from a small distance without cutting back on quality.

The 360 degree revolving and light weight design make this product easy to handle, allowing users to precisely determine the position of the microphone.

Provided with a foam windscreen, this microphone is suited for in - and outdoor applications.

The upper part can be screwed off.

The dark grey color and modest design will make the CMX220 merge with every single environment.
