

ASP20

Spherical Loudspeaker

AUDAC

► Features

- 360° Horizontal coverage
- Moisture- and UV resistant
- Suitable for in- and outdoor
- 4 different power taps
- 2 m connection cable
- High-fidelity music reproduction

► Applications

- Indoor applications
- Athletics fields
- Factory halls
- Large open area's
- ...

The ASP20 is AUDAC's spherical speaker.

It is a full range sphere speaker which is especially designed to provide high-quality sound with a 360° horizontal coverage in a variety of in- and outdoor applications.

Because of the 360° horizontal coverage, the wide dispersion will be perfect for big, open area's like athletic fields, factory halls, shopping centers or various other applications.

Due to the wide, smooth frequency response and the high efficiency, this speaker ensures high-fidelity reproduction of music and intelligible speech at very low distortion.

The housing is made of strong, white ABS material which is moisture and UV resistant.

It is equipped with a 100 Volt line transformer which makes it suitable to be used in large 100V PA systems, containing power taps for 20 Watt, 10 Watt, 5 Watt and 2.5 Watt

The modern looking design makes sure that it will blend into any environment.

► Specifications

SYSTEM SPECIFICATIONS	
RMS power at 100V	20 W
Frequency response -3dB	80 Hz - 18 kHz
Sound pressure 1 W / 1m	99 dB
Sound pressure max W / 1m	103 dB
Line transformer power tapings	20 W/500 Ohm 10 W/1000 Ohm 5 W/2000 Ohm 2,5 W/4000 Ohm
Horizontal coverage	360°
PRODUCT FEATURES	
Dimensions (Diameter)	Ø 254 mm
Length connection cable	2 m
Weight net	2.95 Kg
Drivers	8"
Construction	ABS material (waterproof)
Colour	White
SHIPPING & ORDERING	
Packaging	Carton box
Shipping weight & volume	3.25 Kg - 0.0312 Cbm
